K

WELCOME TO KOONWARRA MERINO STUD'S 49th ANNUAL UNHOUSED RAM SALE

On behalf of Koonwarra Merino & Poll Merino Stud we welcome you to the 49th annual Koonwarra on-property **unhoused** ram sale – the 20th sale at Little Range and the 13th under the total ownership of C.T. Merriman & Son.

The 110 May/June 2025 drop rams in this year's sale catalogue will be available for inspection from 10.00am, with the auction to commence at 1.00pm.

To assist with your selections, all 110 sale rams were **side sampled** in the first week of **August 2026** and fleece tested by Riverina Wool Testers, with the averages being micron 18.7, SD 3.0, CV 16.0, CF 99.4 and SpinF 17.5. The **meat scanning** was undertaken by Rick Power on **20th September 2026**, while **body weights** were done on **6th September 2026**, averaging 91.8kg. This ensures all information above each ram is current and accurate on sale day.

On the day of the sale, these Koonwarra **paddock raised** sale rams will be 15 months old and will have **5 months wool** on them. The rams were **shorn** on **6th April 2026** for their greasy fleece weight percentage.

All offered sale rams have been paddock reared on grass with access to grain feeders – they **have not been shedded** – ensuring these young rams are acclimatised to natural conditions, be it weather patterns or grass availability. They are in good working order and well grown with good body weights.

Jono, Anna, Digby, Toby and Zoe, along with Charlie and Pip, invite you to join us at Little Range.

A light lunch will be provided, along with a BBQ after the sale.

2026 BREEDING FAMILIES AND SIRE INFORMATION

For the 2025 Koonwarra joining program, we did an A.I. program as well as paddock joinings.

SEMEN SIRES USED FOR 2025 A.I. PROGRAM

- **Merrigree “Brocky”** (sired by MGN Glenpaen “Patriot”) – Light Green tag: First year of a two-year program to introduce this genetic line into the Koonwarra stud.
- **Claypans 323 Poll** – Sky Blue tag: An older sire that has been used before in the Koonwarra stud; also part of a two-year plan.
- **KWA Nerstane 650 Poll** – Black tag: Had been a paddock sire for a few years and breed well so we gave him some of the top stud ewes.
- **KWA Nerstane 001 Poll** – Black tag: A great Koonwarra Poll sire we have used over a number joining and been fundamental to the Koonwarra Poll program.

KOONWARRA BRED SIRES / FAMILIES USED FOR 2025 Paddock JOININGS

MGN Big Super 7S	002	Light Red	MGN Big Super

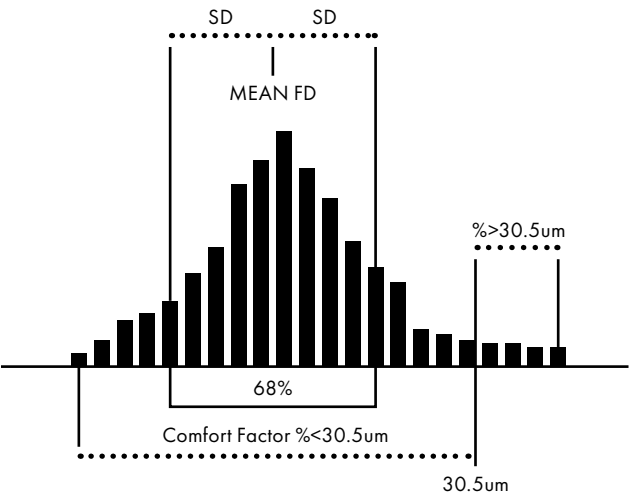

FLEECE TESTING DEFINITIONS

FD – Fibre Diameter: The mean (average) micron result of a sample.

SD – Standard Deviation: Measures in microns the spread of fibres either side of the mean FD in which 68% (two-thirds) of the fibres lie. The lower the SD the more uniform the wool.

CV – Coefficient of Variation: The CV is the SD divided by the mean FD x 100. CV measures the FD variability as a percentage. CV tends to fall in the range of 15% to 30% – 15% is a very uniform wool, while 30% is a highly variable wool.

CF – Comfort Factor: Measures the percentage of fibres below 30.5 microns. Calculated as 100 minus % of fibres below 30.5um.

PLEASE NOTE: Please remember that all these May/June 2025 drop rams could have a six to eight weeks’ spread in their date of birth, from the earliest A.I. lamb born to the last paddock joined lamb born. Therefore the ram body weights are done only as a guide.

On sale day, there will be individual and current information on each ram including micron, SD, CV, GFW% and CF plus sire/family and current body weights along with Meat Indexes and RAMPOWER Indexes.

Ram sale measurements comply with the standards recommended by NSW Stud Merino Breeders Association.

MERINOSELECT RAMPOWER INDEXES DEFINITIONS

RAMPOWER Indexes will be done by Rick Powers in the week prior to the sale.

Merino select RAMPOWER indexes definitions:

FP – Fibre Production: Rates animals on their ability to produce Merino’s for wool production. The FP index is aimed at those producers whose majority of sheep income comes from their wool clip. It is for self-replacing Merino flocks who keep wethers as part of their wool producing flock. The FP index is calculated using a combination of fleece weight, fibre diameter, body weight and CV of that animal.

MP – Merino Production: Rates the animals on their ability to produce progeny for a finer wool operation that has significant surplus sheep sales. The MP index is aimed at those producers whose sheep income is a balance of both wool and surplus sheep sales. It is for self-replacing Merino flocks who do not keep their wethers for wool production. The MP index is calculated using a combination of fleece weight, fibre diameter, body weights and CV of that animal.

DP – Dual Purpose: Target production systems with a balance of income from wool from Merinos and meat production from lambs by terminal sires. It focuses on the genetic improvement of fleece weight and body weight.

NOTE: The figures for the RAMPOWER Indexes provided in this catalogue are on the Koonwarra 2025 drop rams only. The above definitions have been provided by Sheep Genetics.

MEAT INDEX EXPLANATION

The Meat Index allows a group of young sheep with different live weights, eye muscle dimensions and fat depth to be analytically compared.

- > The **Eye Muscle Width A** is more to do with type of animal, i.e. shape of that animal.
- > The **Eye Muscle Depth B and C Fat** is associated with the environment and feeding conditions.

SALE DATE	Wednesday 23rd September 2026 Auction to commence at 1.00pm Inspections from 10.00am
AT	Little Range, 160 Little Range Road, via Cunnigar Road, Boorowa NSW 16kms from Boorowa via the Cunnigar (Harden) Road, then onto Little Range Road
SHEARING	6th April 2026
DELIVERY	Please complete Buyers Instruction Slip in catalogue on page 41.
HEALTH	All rams catalogued have been multiple vaccinated with 6 in 1. All rams to be offered have been vaccinated with Gudair as lambs and are classified as approved vaccinates. Koonwarra Merino & Poll Merino Stud is Brucellosis Accredited Free Number 76342 and Vendors Declaration Footrot Free.
DISCLAIMER	Koonwarra Merino & Poll Merino Stud accepts no responsibility for the accuracy and the repeatability of the fleece test information supplied in this catalogue. All side samples taken were tested by Riverina Wool Testers.
SELLING AGENTS	Vendor rebate is 5% and will be paid to either the agency, advisor or classer that is nominated by the buyer on the day in the Buyers Instruction Slip on page 41. Nutrien Ag Solutions and Elders will conduct the sale, with Nutrien Ag Solutions the settling agent.

FLOCK RAMS SALES

Commence mid-October 2026 by appointment

All Koonwarra flock rams are from the same May/June 2025 drop as those offered at the 49th Annual On-Property Ram Sale.

\$1000 (+ GST) per ram | Contact Jono 0427 272 238

SEMEN SIRES

Koonwarra Merino and Poll Merino Stud has collected semen from the top Merino and Poll Merino sires used within our stud.

\$50 (+ GST) per dose | Contact Jono 0427 272 238

SEMEN RIGHTS

Koonwarra Merino & Poll Merino Stud rams are sold on the condition that C.T. Merriman & Son retain full semen marketing rights.

CLASSING SERVICES

Jono and Charlie welcome the opportunity to **VISIT YOUR FARM** to discuss your Merino flock, understand your sheep and business aims as well as the topography and climate of your property.

Your local country veterinary clinic providing an affordable and professional service for all your small and large animal needs

CONTACT DETAILS UPDATE

If you would like to be added to or taken from Koonwarra's mailing list or to advise us of any changes or corrections to your details, please fill in the form below and then return it to us by email or post.

Alternatively, you can hand the form to us at the Koonwarra open day or ram sale. You can also fill in the visitor's book available at the on-property open days or sales.

If you have purchased rams, ewes or semen from Koonwarra Merino & Poll Merino Stud, you will automatically be put on our mailing list, unless you request otherwise, for the following five years.
